

RIVET TOOL

USER MANUAL

04.02.26 US

NewTechWood

GENERAL INFORMATION

- This manual rivet tool is designed for private use in household and DIY applications. It is suitable for setting blind rivets (also called pop rivets). These rivets permanently join two materials together without requiring access to the back of the joint.

DESCRIPTION

The tool consists of:

- Rivet head with interchangeable nosepieces.
- Ergonomic handles with safety lock.
- Internal spring mechanism for automatic pin ejection.
- Integrated wrench for nosepiece replacement.

SAFETY INSTRUCTIONS

- Always wear safety goggles to protect your eyes from flying debris.
- Keep fingers away from the rivet head during operation.
- Do not use the tool on live electrical components.
- Store the tool in a dry place and keep out of reach of children.

MAINTENANCE

- Clean the tool after each use.
- Lubricate moving parts periodically.
- Replace worn nosepieces or internal jaws with original parts.
- Store in a dust-free environment.

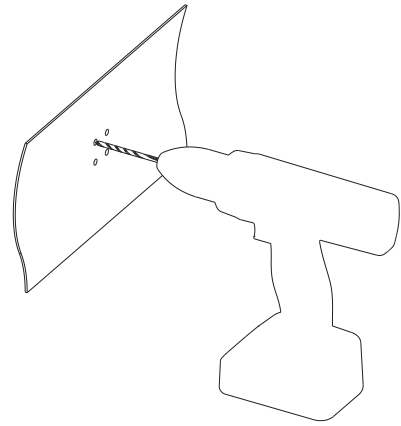

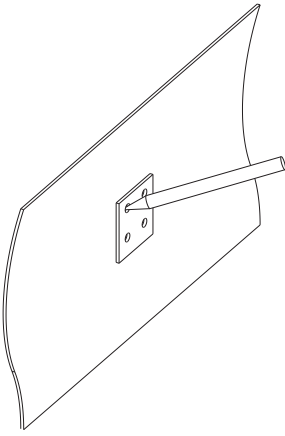

TROUBLESHOOTING

- Issue: Rivet does not snap
- Solution: Check rivet size and material thickness; ensure full handle compression.
- Issue: Mandrel stuck in tool
- Solution: Open handles fully and tap gently to release.
- Issue: Rivet inserted is crooked
- Solution: Ensure tool is held perpendicular during operation.

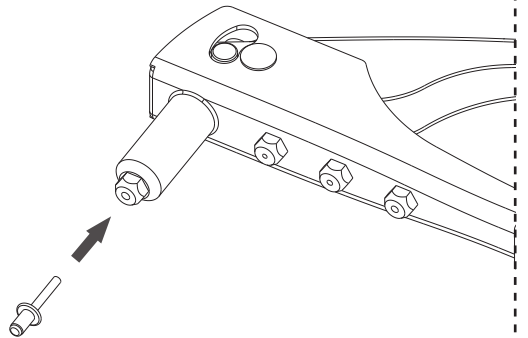

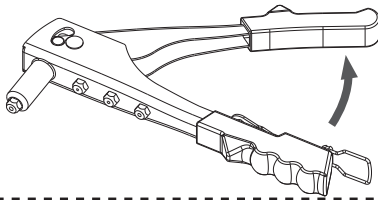

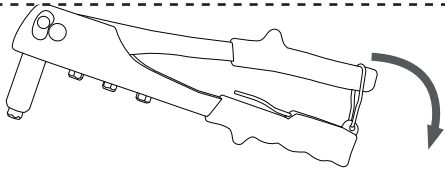

CONTACT

For support or spare parts, contact your local distributor or visit the manufacturer's website.
